Robert Shelmerdine representing the Congress Group, stated that the MassWorks grant application is for the commercial and residential components of the project near Highway 95 across the street from Shaw's Plaza.

Susan Gittleman of B'Nai Brith Housing was in attendance as well. The funds being requested are for the development of the road as well the development of the septic treatment plant. The application is for \$4,000,000 with \$2.5 million for improvements to the road and \$1.5 million for a waster water treatment plant for the residential component. The grant is due on September 10, 2012. Mr. Shelmerdine stated that last year when the application was submitted it only included the commercial component and did not include the housing component. Susan Gittleman of B'Nai Brith said the housing component in the south parcel would include 139 units to include 70 units of 100% affordable units for working professionals as well as 69 condominiums. She said on the south parcel they would like to develop a 62 unit assisted living project. She said the commercial and residential units very much compliment one another. She said the application will be a much more attractive proposal to the state because of the addition of the residential component. She said the state has identified Sharon as a "high opportunity community." Ms. Gittleman said that she would be coming before the Selectmen again in a few weeks to ask for further support for the residential 40R component subsidized loan credits or programs.
