

Lake Management Study Committee

Meeting minutes 11 June 2013

In attendance

Cliff Towner
Noah Siegel
David Deitz
Todd Arnold
Mike Goldstein

meeting called to order at 7:15 at the Sharon Community Center.

Cliff informed us that Mike Baglino formally resigned from the committee as he is moving away from Sharon. Mike has given the committee many years of service and he will be missed. We wish him the best.

In service of the needs of the committee, specifically to monitor conditions at the lake, it was noted that the town is no longer extending committee members the courtesy of car access to the boat launch and memorial beach parking as in years past.

Todd Arnold made a motion for the committee to use it's own funds to buy members passes so that they can perform their duties.

motion passed with one abstention (goldstein)

Weeds. It has been noted that the lake is clear ('too clear') of weeds. both last year and again this year. Last year there was testing for chemicals and pH balance that could explain it, but all was at normal levels. Nutrient levels where not specifically tested for. Much discussion on this.

is it

normal cyclical activity

low nutrients

what are considered normal levels of nutrients?

have efforts to remove runoff to the lake been too

successful?

and muscles. what is the health level of muscles?

Fish seem to be at healthy levels.

it was agreed to gather nutrient levels, and to study what norms should be. other courses of action not determined.

Annual election of officers. the following election was unanimous:

Chair - Cliff Towner
Vice Chair - David Deitz
Clerk - Mike Goldstein

respectfully submitted-
