

Lake Management Study committee  
Minutes May 20, 2015

Present

Noah Siegel  
Steve Weiss  
Mike Goldstein  
Rob McGrath  
Dave Blaszkowsky  
Stanley Rosen

Call to order 7:40 PM.

Motion to approve Minutes of May 6, 2015. Approved with minor edits.

Rob updated us on the website.

we have an email address: LMSC@townofsharon.org we discussed how that will get read and responded too.  
our web page will soon look like the other town Full webpages, with links, agendas, minutes etc. plan is to make this the focus of all lake-related information.  
.PDF file format is preferred

Update from Stan on lake testing, currently paid for by the rec dept, and their plan to cut back to the mandated once per-week testing rather than the twice per week of the past. Test results used to get posted but that didn't happen last year.

BOH to discuss testing Freq (may 23???) change to mondays only...

discussion of possible content for website

data on lake level and temperature.

update on weeds

any reports

links to other info.

request to use historical MYC info and also to allow link to MYC website.

Bob presented an example of potential Information to be posed on the site.

Currently the lake 'appears to be okay'. no current issues.

Short discussion on the Weeds on the lake edges raised by Todd Arnold at the lake review meeting,  
mainly, do the weeds that grew up at the edge of lowered lake last year, present a problem this year as those now dead weed decompose and provide extra nutrients to the lake?

Impossible to quantify and no known pro-active action to be taken. the usual monitoring of lake health, weeds, and algie should suffice.

Noah presented draft letters to remind Board of Health, Selectment and Rec Dept on the Dog and Boat ramp regulations. all agreed these were an excellent idea.

Discussion on our rebuilding relationships with state Fish & Game. Greg M. has no contacts, Cliff had all those relationships. Noah will work on this. Steve will to the meeting with Fish & Game (and others) mentioned by Bill H at the review committee meeting.

We reviewed and agreed with the corrections to the 2014 Lycot final report.

Discussed what input we might have for assitance/backup for the Con-com agent (Greg M.) Rob and/or Noah will Speak with Peg about this.

Note that the last official update to the Cedar Swamp Restoration report is now three years old.

Will ask other committees (Water, rec, health, planning, con-com) for minutes and updates. And will do same. Planning has begun receiving our minutes (after approval) as requested at Mike's appointment mtg.

Next meeting tentatively set of june 3.

motion to adjourn at 9:15

respectfully submitted,  
Michael Goldstein,  
clerk
