*Sharon Public Library
1 School Street
Sharon, MA 02067*

Dear Abutters of the New Sharon Public Library Project,

We'd like to share with you the following:

After a successful signature campaign at the North Main Street Library, the topping off beam has been returned to the job site and will be installed as one of the final pieces of the framing work. This beam will be located on the west side of the building which is the front entrance location of the new library.

The steel erector team has completed most of the steel framing and has continued with installation of corrugated steel decking on the 2nd level of the building. The upper decking installation started at the east side of the building (North Main Street) and the team is progressing towards the central and west sides of the building. Steel detail work has included welding of beams and decking, concrete pour stops, bolt installations and safety railing work. The steel detail work will be proceeding for the next several weeks.

The exterior mockup framing and sheathing work is complete and this assembly can be seen at the southeast fence line area (Corner of School & North Main streets).

We've experienced some wet weather yesterday (3/28) and today (3/29) so we lost some outdoor productivity at the job site this week.

There were no inspections this week but there's a structural steel inspection anticipated next week. The town's Building Inspector continues to check in on the progress of the construction as well.

The general contractor will continue to direct all construction-related vehicles and deliveries through the North Main Street gate entrance, away from School Street and the neighborhood in general.

We will continue to keep everyone informed of the job site progress and any other items of note. Hope you have a great weekend.

Please email the following:

DHurley@chasolutions.com, chochheimer@chacompanies.com, mluzaitis@chacompanies.com, JSullivan@chacompanies.com, where you will be added to the list of abutters for future project updates. Do not hesitate to reach out to us with any concerns you have.

Thank you.
