

10.6.2023 Sharon Public Library Update

October 6th, 2023

RE: Sharon Public Library

1 School Street

Sharon, Ma 02067

Dear Abutters of the New Sharon Public Library,

We'd like to share with you the following:

Site work remains ongoing. There is continued use of the vibratory roller throughout the excavation phase of the project and the contractor has been instructed to lower the frequency of the equipment to limit the inconveniences associated with it to houses and buildings within the range of effect. We appreciate the inquiries about this and we have adjusted with respect to the processes of site work.

Jersey barriers and fencing have been installed and the School Street closure has been completed. A 4-foot-wide pedestrian pathway to North Main Street has been established and all construction-related vehicles and deliveries will be directed to enter and exit the job site through the North Main St gate entrances. Streets have been updated with signage to direct vehicles away from School St and to inform drivers of no motor vehicular access to North Main Street from Depot and/or Pleasant Street.

Potential impacts regarding construction will continue to be communicated through regular updates. These updates will be provided through emails, along with a bulletin board, which will be installed along the North Main Street fence line.

Your cooperation and collaboration on this project are greatly appreciated.

Please email the following: chochheimer@chacompanies.com, mluzaitis@chacompanies.com, JSullivan@chacompanies.com, where you will be added to the list of abutters for future project updates. Do not hesitate to reach out to us with any concerns you have.
