Sharon Public Library
1 School Street
Sharon, MA 02067

Dear Abutters of the New Sharon Public Library,

We'd like to share with you the following:

Site work and excavation work for the building's foundations is ongoing. The loading and trucking of excavated materials (soils and rocks) for removal from the job site is also ongoing.

All construction-related vehicles and deliveries continue to be directed to enter and exit the job site through the North Main Street gate entrances. With street

signage installed to-date, we hope these efforts will be helpful in directing vehicles away from School Street specifically, and the neighborhood in general.

The formwork team has started mobilization with delivery of materials this week and are currently in the process of installing forms and rebar related to the basement concrete footings.

The Town has secured a testing agency for vibratory monitoring purposes at the job site.

Please email the following: chochheimer@chacompanies.com, mluzaitis@chacompanies.com, JSullivan@chacompanies.com, where you will be added to the list of abutters for future project updates. Do not hesitate to reach out to us with any concerns you have.

Casey Hochheimer

Assistant Project Manager
