RE: Sharon Public Library
1 School Street
Sharon, Ma 02067

Dear Abutters of the New Sharon Public Library,

We'd like to share with you the following:

For the next couple of weeks, job site activity will consist mainly of excavation work in preparation for the foundations. Currently, the site contractor is stockpiling loam material, removing stumps, removing asphalt material, surveying the site, and cutting grade material to the required elevation levels.

Additionally, we would like to inform you of the coordination with public safety officials that occurred yesterday 9/14. The fire department conducted an assessment to optimize the transportation of a firetruck through School Street. This was aimed to ensure efficient access to the neighborhood in the case of emergencies.

In terms of upcoming events, the ground breaking ceremony is still set to occur on 9/22 at 11:00 a.m.

Potential impacts regarding construction will continue to be communicated through regular updates. These updates will be provided through emails, along with a bulletin board, which will be placed along the site perimeter following the closure of School Street (most likely located at the North Main Street side of the construction site).

Please email the following: chochheimer@chacompanies.com, mluzaitis@chacompanies.com, JSullivan@chacompanies.com, where you will be added to the list of abutters for future project updates. Do not hesitate to reach out to us with any concerns you have.

Look forward to hearing back from you.

Thank you,

Joe Sullivan
