...Age in Place

To enable individuals to live as safely and independently in their homes for as long as possible

- ✓ **Assess Functionality**
- ✓ **Identify Obstacles**
- ✓ **Personalized Solutions**
- ✓ **Implement Solutions**

What are some of the things we look for as obstacles to Age in Place ?

Can You Access Your Home?

Can You Access and Safely Use Your Bathroom?

Can You Access and Safely Use Your Bedroom?

Can You Access and Safely Use Your Kitchen?

How do you do it:

- ❖ Make a range of **practical modifications** and/or **additions** that result in the home being comfortable, user friendly, and a safer place to live - **avoiding** having to relocate simply because one's home is too difficult to get around.

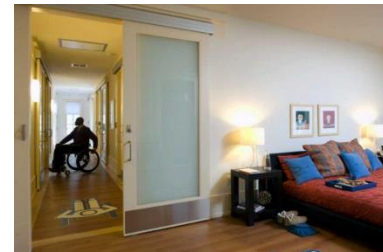

Entry-Exit Ways

Bathroom
